

# THORSYS AUSTRALIA PTY LTD

Computing Solutions for the  
Information Age

## Thorsys Label Applicator L200 Series I <sup>®</sup>

Perfection requires technical know-how and the ability to interpret and transform into reality the demands and needs of our customers. Ingenuity is the key to perfection.

The Thorsys Label Applicator provides a cost effective solution for improving performance of label application utilising standard label printers at a fraction of the cost of a standalone unit.

The standard model uses the Datamax<sup>®</sup> I series printer, while other combinations are possible using a range of Zebra<sup>®</sup> and Intermec<sup>®</sup> printers.

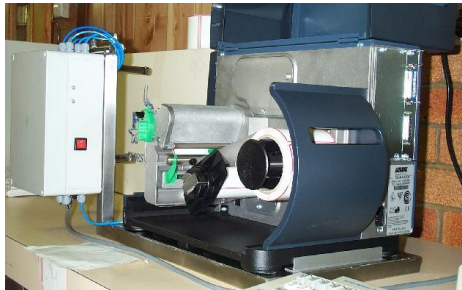

**100% Australian Owned**

# Computing Solutions for the Information Age
